

Dear Fellow Idahoans,

As the elected leaders responsible for conducting elections in every corner of our great state, we are united in a shared commitment to ensuring the accessibility, integrity, and security of Idaho's elections. While each county in Idaho may differ in size, geography, and population, one thing remains constant: your right to a secure and transparent election process.

No matter where you cast your ballot—whether it's in Boundary County, Bear Lake County, or anywhere in between—you can rest assured that the same principles guide us. We are proud to uphold the 12 Principles of Idaho Elections, which pledge that every eligible Idaho voter has access to the voting process, that strict security protocols protect our elections, and that the outcomes are accurate, timely, and trustworthy.

This pledge represents our ongoing dedication to maintaining the highest standards in election administration so you can always trust the process, no matter where you live. It is our privilege to serve as stewards of democracy, and we take that responsibility seriously. Our elections belong to all Idahoans, and we will continue working to uphold your trust in this vital process.

Sincerely,

Phil McGrane
Idaho Secretary of State
